***EXPERIMENTAL WEB-SERIES COMBINES ©GRAMMY WINNING
FOO FIGHTERS ALBUM WITH RELATIONSHIP HEARTBREAK.***

Los Angeles, CA Feb. 4, 2014

Based on a true story of a relationship's demise, *Once & For All* is an experimental web-series which uses music rather than dialogue to tell its story. Many people have felt the heartache and had to work to rebuild themselves when a relationship dies. Writer/ Director Cory Reeder, used his personal experience as creative fuel and produced the 13 episode series *Once & For All*.

Inspired by the ©Grammy Award-winning Foo Fighters album *Echoes, Silence, Patience & Grace*; Reeder crafted the tale of his breakup, downward spiral into alcoholism and return to sanity around each song on the album. "The trick was to tell a cohesive story, through an album of music that was not conceived as a concept album," said Reeder.

The series can be found on YouTube, as well as the following sites:

An award-winning album of music showcased by a heartbreaking story where actions speak louder than words.
